

TV & AV Design Services for Healthcare Facilities

Working to Create Better Patient, Visitor, and Staff Experiences

Avidex is a leader and innovator providing integrated television and AV technology solutions designed to improve patient, staff, and visitor experiences.

Working with more than 2,500 hospitals and clinics across the U.S., we fully understand the intricacies of healthcare facility design requirements, both clinical and non-clinical, and deliver world-class TV and AV solutions that meet the needs of any complex and dynamic healthcare environment. No other company has designed and implemented more hospital audio and video solutions that foster teaching and collaboration, enhance the patient and visitor environment, and improve overall patient satisfaction.

Pre-construction Services Include:

- Infrastructure Planning and Design
- CAD Drawings, Line Drawings, and Schematics
- AV and Low Voltage Designs for RFP Submittals
- Create Specifications for Elevation Drawings
- Electrical Requirements
- Engineer Cable Paths
- RF Signal Balancing
- On-site Project Management
- Federal and State-specific Regulatory Agency Compliance Submissions

Hospitals and other healthcare facilities operate in challenging and demanding environments with stringent safety and patient privacy mandates. Fully comprehending these unique complexities is where Avidex excels. We take a forward-thinking approach in future-proofing recommended solutions that not only meet today's IDN needs today but anticipate tomorrow's ever-changing requirements.

Our expertise includes partnering with hospital architects, designers, and engineers on new construction and renovation projects across multi-use campuses to develop intricate television and AV systems for any healthcare facility.

Planning, Design and Complete Turnkey Implementation of:

- Patient and Common Area TVs and Displays
- Head-ends for Customized Content Delivery
- Patient Entertainment Programming
- Overhead Paging Systems
- Control Room Systems
- Sound Masking
- Secure Room Communications for Behavioral Health Compliance
- Custom Audio System Outlets and Components for Noise Control
- TV Solutions for Isolation Rooms
- Hospital-wide Messaging Systems
- Digital Signage
- Wayfinding Systems

Schedule a Consultation with Avidex

Our TV and AV design experts will provide a consultative, solutions-based approach to ensure a better experience for patients, visitors, and staff with greater efficiency and lasting cost effectiveness.
